Face it – you didn’t get into employee benefits to shuffle paper, hassle with carriers, spend hours each month reconciling insurance bills or disappoint your employees by not providing them with the tools and resources they need to enroll promptly and efficiently. Spending long hours at the office around open enrollment season isn’t much fun either.

Our Clients
Save Time

Reduce your administration time by up to 80%. Benefits administration doesn’t have to be painful! Our survey shows that our clients reduced their in-house time by up to 80% when they moved to TRI-AD, whether they were newly automating or coming from another service provider.

TRI-AD can take you from swamped to strategic in just a few weeks. We worry about the details so you don’t have to. Our proven implementation process and attentive, personal client service help you “go live” successfully and stay on track.

You can leverage your time even more by using a “one-stop shop” approach. Our flexible, total solution lets you delegate the administrative burden to us.

How We Do it

Many firms provide these services but few do them well. We do. You can trust TRI-AD’s experienced staff to deliver the results you expect because we have a track record of meeting and exceeding our clients’ expectations. We do it with three key service elements:

- **Flexible processes and technology:** We tailor our service model to meet your process. You won’t hear us say “we can’t do that.” With many competitors, you have to change your benefit plans or rules to fit their system. You don’t have to do that with TRI-AD.

- **Fantastic service:** Our friendly, knowledgeable, accessible staff is committed to your success and satisfaction. In our latest survey, 100% of our outsourced benefits administration survey respondents were “satisfied” to “very satisfied” with service—a perfect score!

- **Flawless execution:** Once your system is implemented, benefits administration should “just happen” day-to-day so that you don’t even have to think about it. There should be no employee complaints, no missed eligibility records, and no billing errors. The sound of this on your end is silence.

Save Money

What if you could cut 2 to 5% off your benefits budget instantly? Our clients have shown that our sophisticated edits and carrier management processes can save tens or even hundreds of thousands of dollars in premium overpayments simply by improving recordkeeping.

With this kind of payback, outsourcing to TRI-AD typically pays for itself within a year. Imagine your management’s reaction when you report the positive impact on the company’s bottom line because of your decision to move to TRI-AD!

Make a Difference

The result? You can focus on leading-edge strategic benefits issues that really let you shine in your organization. We help you make benefits a secret weapon in your company’s arsenal of ways to attract and retain key talent.

Profiles In Success

**Profile:** A high-tech client saved $75,000 in the first year when TRI-AD uncovered an error in the LTD premium calculation method that had previously been used.

**Profile:** A large grocery chain saved almost $100,000 in the first year when TRI-AD’s audits revealed people on the carrier rolls that should have been dropped months earlier.

**Profile:** A 4,000-employee biotechnology company redeployed its benefits staff to focus on a comprehensive wellness initiative. Their health plan rates fell 5% in a year when other companies were seeing double-digit increases, and employees felt truly valued by the time, energy and interest the company was showing in their overall health.

**Profile:** The Benefits Manager at a 3,000-life client went to Australia for a family reunion during open enrollment, trusting TRI-AD to get it right in his absence.

“Open enrollment process used to be a nightmare. We stuffed 20,000 packages and shipped them to more than 750 locations. TRI-AD took this huge effort off our hands and managed the process beautifully. They also gather all the enrollments for us electronically and send back a file. Open enrollment is a breeze now compared to what it used to be!”
